

DJ STUNTZ

Performance/Production DJ

with ToyMaker Music Promotions

Bio:

This Chicago land DJ can be summed up in one word... ENERGY, and lots of it. Stuntz has quickly developed his style of fast pace beats that are sure to make you wanna move. Though NRG and psychedelic trance are pillars of his analog arsenal, he keeps true to his first love and driving force, high energy trance.

Stuntz began producing remixes and cheerleading competition mixes in 2000 but has since hit the ground running when he made the transition into a performance DJ in 2002. He has appeared on the bill with such names as George Acosta, DJ Micro, Nigel Richards, Mark Almaria and Phantom 45.

His major creative influences come from DJ Tiësto and Ferry Corsten. Stuntz has released 6 full length DJ mixed CDs that are available for download on djstuntz.com in addition to a 30 minute demo mix and multiple remixes.

"Electronic music fuels my life. I listen to it when I'm getting up in the morning, driving, working out, and everything in between. The music is caffeine for my ears and I am an energy junkie."
